Subject: Re: next ecos-epa pfas webinar

Asked NRMRL (Brian Gullett) for this a few months ago, here is their white paper - does this address the need? Bottom line there is very little info published on this topic.

FYI, just fielded a similar inquiry from Jennifer McLain in OW, sent her and Deb Szaro the same info.

We are getting several inquiries from states and regions on pfas incineration and monitoring. Jeff Ryan in NRMRL seems to have background on this. Could we look to pull together a 1 pager on this issue, status of air methods development, effectiveness of incineration, monitoring strategies etc

Then perhaps set up a brfing for regions and then states on this
